

TPA

Total Professeurs Associés

LECTURERS

Olivier DUBRULE

Degrees	MSc from Paris Engineering School (1978) PhD in Geostatistics (1981)
Experience	Geostatistician at Sohio Petroleum USA (1982-86) Business Consultant at Shell International The Netherlands (1986-91) Head of Reservoir Characterisation project at Elf France (1991-94) Geology Manager at Elf Geosciences Research Centre UK (1994-98) Earth Modelling Manager then Geosciences Training and Communication Manager (1998-2004)

	<p>Manager, Total geosciences Research Centre UK (2004-2008)</p> <p>Director, Total Research Centre Qatar (2008-2011)</p> <p>Vice-President, Geosciences Training & Technical image (since 2012)</p>
Activities	<p>Geostatistics.</p> <p>Earth Modelling: 3D geological and reservoir modelling</p> <p>Multidisciplinary integration of reservoir well, seismic and dynamic data (geostatistical inversion)</p> <p>Uncertainty calculations, exploration, appraisal and reservoirs</p>
Teaching and training	<p>"Geostatistics in Petroleum Geology" (1996-98) AAPG-sponsored, including AAPG Courses Notes #38 authoring</p> <p>"Geostatistics for Seismic Data Integration in 3D Earth Model", EAGE/SEG distinguished instructor short course (DISC) given at close to 50 locations worldwide since 2003</p> <p>Professor at Imperial College since November 2014</p>
Courses	<p>Petroleum Geostatistics</p>
